

Best College Blogs and Websites

Best Websites for College Students

From all aspects of College life, here are some of the best websites beneficial to college students:

Social Networking and Blogging

- facebook - A site that started just for college networking; many believe a facebook account is a must have for college students. There's also a lot of facebook apps perfect for college.
- AlumWire - A career network for college students and alumni.
- LiveJournal - A social network revolved around journals and blogs.
- MySpace - Still a big player in the College scene, though many agree facebook is the social network of choice among college students.
- Xanga - Free blog host.

Classroom Tools

- Stu.dicio.us - Student organizer and social note taking tool where students can manage schedules, to-do lists, grades, notes and files.
- Notely - Calender, courses, notes, bookmarks, contacts, to-do lists and uploading all in one place.
- Gradefix - Homework task manager that organizes and prioritizes your assignments. The perfect app for the slacker or the scholar.
- MyNotelt - An online note taking tool for students.
- Notecentric - Store and share notes online.
- Ratemyprofessors.com - Rate professors, and check out prospective ones.
- Pick-A-Prof - Check out a professor's ratings, reviews and grade histories.

Online Apps

- CollegeWikis - College specific wikis where users can ask questions and share answers with other students at their school.
- Box.net - Online file storage and sharing.
- MyDataBus - 5 GB of free storage for your photos, videos, music and other files. Also has facebook integration.

- Del.icio.us - Social Bookmarking: An easy way to bookmark your favorite sites online. In college you'll be using more than one computer, and this tool enables you to keep all your bookmarks in one place.

- flickr - Photo sharing and hosting.

Financial Aid

- Fafsa - The way to getting college grants and loans.

- Fastweb - A great place to find College Scholarships.
